CRETORS OFFERS CMD25 AND CMD100 CARAMELIZERS

Combination cookers and mixers make it easy for concession businesses to offer caramel corn

C. Cretors and Company, the leading designer and manufacturer of food processing and concession equipment for over 120 years, offers the CMD line of Caramelizers designed to make it easy for concession businesses to diversify and offer caramel corn. The CMD25 and CMD100 combination cookers and mixers allow businesses to easily cook and mix a variety of savory and caramel flavors.

Cretors' exclusive mixing baffles inside the cooker/mixer gently cover the popcorn with coating, so there's no need to ever perform manual mixing with a spatula or other tool. Cretors' standard and custom-built cooling bins are available with optional built-in blowers that blow cool air through the perforated steel tray bottom. These blowers cool the coated corn more rapidly, speeding up the production process.

Cretors' CMD series Caramelizers are constructed from easy-to-clean stainless steel and mount directly onto a knockdown table or cooling bin for convenient set-up. They feature the ease of one-switch operation, and the safety and accuracy of a digital temperature controller with audible alarm.

About C. Cretors and Company

Established in 1885, C. Cretors and Company is the leading designer and manufacturer of food processing and concession equipment providing a complete range of innovative foodservice solutions to companies around the world. A renowned industry innovator, in 1885 Cretors introduced the first patented steam driven popcorn machine that popped corn in oil. Since 1967, Cretors' Food Processing Division has offered a patented continuous production line featuring a hot air fluidized bed oven for high-volume popcorn production.

Over the company's long and storied history, its Foodservice Division offerings have expanded to include machines that produce and/or dispense cotton candy, nachos, caramel corn, and hot dogs, topping and dispensing equipment as well as warming and display cabinets. Today, Cretors continues to reinvest in research and development to ensure constant improvements in everything from equipment manufacture to customer responsiveness to distributor network communications.
