**CRETORS OFFERS THE NEW ENVIRONMENTALLY FRIENDLY ONE POP
FEATURE AVAILABLE FOR ALL CRETORS POPCORN MACHINES**

One Pop feature automatically shuts off once kettle is emptied

C. Cretors and Company, the leading designer and manufacturer of food processing and concession equipment for over 120 years, offers a new technology, the one pop feature. This unique option patented by Cretors can be included on any of their popcorn machines. Easy to use, safe and environmentally friendly, the One Pop is an ideal choice for any Cretors Popcorn Machine, as it allows for automatic shut off of the machine once the popcorn kettle is emptied. Activated by a single push of the finger to a user-friendly green button located directly on the control panel, the One Pop feature allows for the conservation of excess energy when the machine is not in active use.

Designed with the user's safety in mind, the One Pop feature automatically shuts off once the kettle is emptied. Ideal for both large and small poppers, this technology is useful in a wide variety of venues, such as home theaters, convenience stores and movie theaters. In addition to the energy saving abilities, the One Pop feature alleviates worry when forgetting to shut off the appliance as it prevents smoke and burned popcorn which can lead to ruined kettles, and even possible fires.

About C. Cretors and Company

Established in 1885, C. Cretors and Company is the leading designer and manufacturer of food processing and concession equipment providing a complete range of innovative foodservice solutions to companies around the world. A renowned industry innovator, in 1885 Cretors introduced the first patented steam driven popcorn machine that popped corn in oil. Since 1967, Cretors' Food Processing Division has offered a patented continuous production line featuring a hot air fluidized bed oven for high-volume popcorn production.

MORE

Over the company's long and storied history, its Foodservice Division offerings have expanded to include machines that produce and/or dispense cotton candy, nachos, caramel corn, and hot dogs, topping and dispensing equipment as well as warming and display cabinets. Today, Cretors continues to reinvest in research and development to ensure constant improvements in everything from equipment manufacture to customer responsiveness to distributor network communications.
