

When Granddad was a lad . . .

CRETORS poppers were first in value . . .

Pacemaker Floor Model

Wagon Model 1892

*over three-quarters
of a century later,
they still are!*

Today, Cretors and Company is still producing poppers that are "first in value". Here are the newest examples of Cretors machines that give "more value for your money"—four new value-priced poppers designed and built to produce

high-production profits, to yield more profit per dollar investment than any other low-priced popper. Check the cost. Compare the high profit on such a low investment for these new Cretors poppers.

THRIFTI

- Produces 175 to 200 standard-size containers of popped corn per hour.
- Earns up to \$20.00 per hour.
- 8-Oz. kettle with thermostat and pilot light.
- Infra-red heat lamp keeps popped corn hot and fresh.
- Hinged-plexiglas doors fold back against case for safety.

SPECIFICATIONS:

Operates from 115 volts, two-wire, 60 cycles, AC service. Total wattage 1550 or 13.5 amps. 22" deep x 26" wide x 35" high. Net weight 70 lbs., shipping weight 90 lbs.

***\$229.00** Catalog No. T8C

The profit from \$45.00 worth of ingredients pays for this machine.

PACEMAKER counter model

- Produces 325 to 350 standard-size containers of popped corn per hour.
- Earns up to \$35.00 per hour.
- 14-Oz. kettle with thermostat and pilot light.
- Cretors exclusive "under-case" warmer and infra-red heat lamp keep popped-corn hot and fresh.
- Hinged drop-shelf and plexiglas doors allow fast convenient operation.
- Colorful illuminated styrene top creates more impulse buying for greater sales and profits.

SPECIFICATIONS:
