#### I. SAFETY ALERT SYMBOL

The symbol shown is used to call your attention to instructions concerning your personal safety and the safety of others. Watch for this symbol. It points out important safety precautions. It means **ATTENTION!** Be Alert! Your personal safety is involved! Read the message that follows and be alert to the risk of personal injury or death.

#### II. SAFETY FIRST

The information in this manual is essential for the safe installation and operation of your Cretors unit. The manual must be read and understood before installing, and operating the equipment, or equivalent training must be provided.

The employer shall instruct each employee in the recognition and avoidance of unsafe conditions, as well as, the regulations applicable to his work environment and to control or eliminate any hazards or other exposure to illness or injury.

Ref.: 29 CFR 1926.20 (b)(4)(a)(2)

It is understood that safety rules within individual companies vary. If a conflict exists between the safety procedures contained in this manual and the rules of a using company, the more stringent rule should take precedence.

#### III. PURPOSE OF MANUAL

This instruction manual is intended to familiarize owners with the operation and safety procedures associated with this Cretors machine.

It is important that this manual be kept available to operating personnel.

### IV. PRODUCT IDENTIFICATION

#### CRETORS MAS GRANDE DISPLAY CABINET

MODEL MODEL 6500 POPCORN DISPLAY CABINET

Electrical: 120Volt, 60 Cycle

1050 Watts

Dimensions: 23in x 34.75in x 31in Net Weight: 78 Lbs. (35.5 Kgs)

MODEL MODEL 6500 POPCORN DISPLAY CABINET

Electrical: 230Volt, 50/60 Cycle

1050 Watts

Dimensions: 23in x 34.75in x 31in Net Weight: 78 Lbs. (35.5 Kgs)

#### V. PRINCIPLES OF DISPLAY CABINET OPERATION

#### **Theory and Observations of Display Cabinet Operation**

The Display/Warmer Cabinets hold nacho chips, popcorn, or other snacks to maximize the sell ability of snacks. Load and un-load product through the large doors on the unit's front for easy storage and retrieval of product. The unit features a corrosion-resistant design and tempered glass for easy cleaning; the surface will not scratch or discolor. The unit's door is easily-removable, for cleaning. Rubber feet prevent skidding on counter top surfaces. The cabinet is provided with internal light, forced reticulating hot air and a heat pad to keep product warm.

#### VI. CONTROL SWITCH

MAIN POWER SWITCH

-Controls lights and cabinet heat.

#### VII. INSTALLATION INSTRUCTIONS

#### 1. Location

Choose a location for your Cretors Display Cabinet to maximize the ease of operation and maintenance procedures. Check your local building and fire codes for location restrictions.

#### 1. Power Supply

Check the nameplate to determine the required power supply.

Connect your cabinet only to the correct power source.

Make certain the main power switch on the cabinet is in the 'OFF' position when plugging into power source.

#### VIII. OPERATING INSTRUCTIONS

Do not attempt to operate your Cretors Display Cabinet until you have read and understood this manual. Failure to do so may result in serious injury or death.

Do not attempt to operate your Cretors unit unless the installation instructions have been strictly adhered to. Failure to do so may result in serious injury or death.

Do not use an extension cord.

- 1. Turn the display cabinet switch "ON" to turn on lights and cornditioner.
- 2. Fill containers as desired and place them on the display cabinet shelves.
- 3. Keep doors closed to keep products crisp and fresh.

This display cabinet uses a cornditioner system to keep the products crisp and fresh. Do not use display cabinet to hold any other products, especially potentially hazardous foods

Operate your display cabinet only under sanitary condition (SEE SANITATION INSTRUCTIONS).

**For service technician**: Make sure the machine is unplugged. To replace the halogen bulb, remove the hardware, bracket and sign. Remove the bulb from the mounting bracket and pull out old bulb from the socket. Install new bulb by pushing bulb pins into socket, and inserting bulb back into the mounting bracket.

**For service technician**: Make sure the machine is unplugged. To replace the fluorescent bulb, remove the hardware, bracket and sign. Remove the bulb from the sockets by rotating and pull. Install new bulb by pushing bulb pins into socket and rotating.

#### IX. SANITATION INSTRUCTIONS

Be certain the machine is turned off and the power is unplugged before sanitizing this unit unless a specific cleaning procedure requires power. Failure to do so could result in serious injury or death. Do not clean heated surfaces until they have sufficient time to cool. Failure to do so may result in serious burns or scalds.

Do not immerse the unit in water. This will damage the electrical components, and may cause short circuits, resulting in an electrical shock hazard if power is applied. This unit should not be cleaned with a water jet.

- 1. After unit has been allowed to cool and has been unplugged, remove any excess product remaining in the bottom.
- 2. Remove shelves and all screen covers.
- 3. A good quality stainless steel cleaner is best for the metal.
- 4. Use a non-abrasive cloth and cleaning products that are non-corrosive, non-abrasive, and food safe.
- Clean and rinse screens then sanitize.
- 6. Replace shelves, screens, and doors after clean and dry.

#### X. SERVICE INSTRUCTIONS

Only a qualified person should perform the following diagnostic checks, and, if necessary, corresponding adjustments and repairs. Many of the following procedures may present an electrical shock hazard and can cause serious injury or death. Perform work only on de-energized circuits. Failure to do so may lead to electrical shock resulting in personal injury or death.

#### A. Parts

When ordering parts, refer to the recommend spare parts list included with this manual or wiring diagram. Always supply the serial number and model number of your unit.

#### B. Check Unit Periodically

Periodically check electrical switch and cord for signs of wear. Check all screws and rivets for tightness.

#### C. To Access Electrical Components

To access all electrical components, unplug power cord from outlet, and then lay unit on its side and remove the four screws from the bottom cover, exposing heating element, switch, and wiring. **THIS UNIT IS NOT FUSED.** 

#### XIV. Miscellaneous Information

This unit is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

Children should be supervised to ensure that they do not play with the appliance.

If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

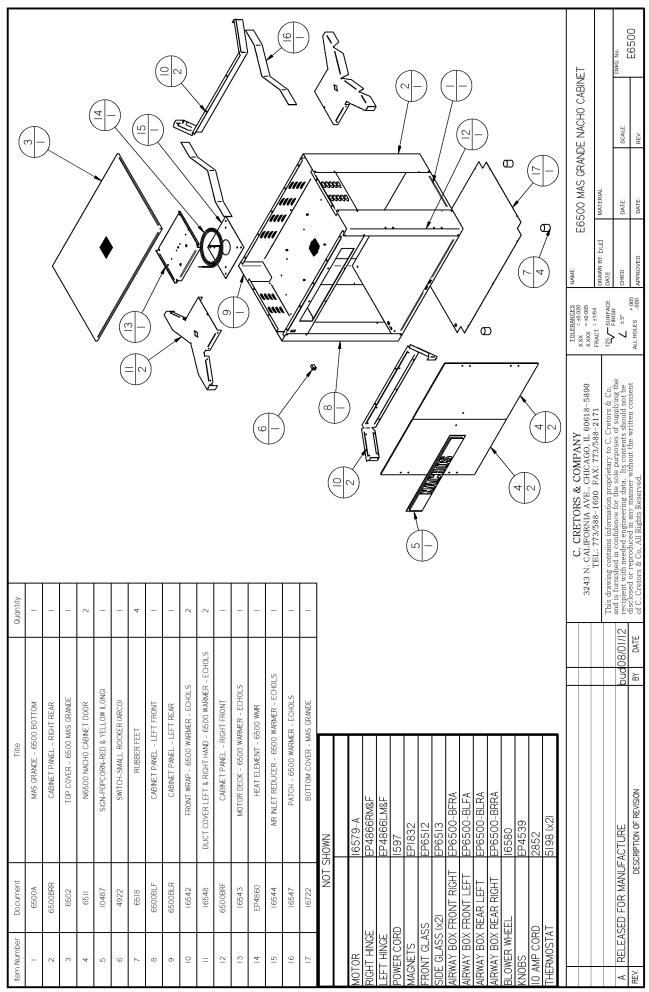

If you have questions regarding the operation, cleaning or warranty of your unit, contact your local distributor or the Customer Service Department at C. Cretors and Company at (800) 228-1885.

Cretors guarantees this unit to be free of defects in parts, materials and workmanship for two years. Please fill out the factory registration card and return it to the factory to activate your warranty.
