CRETORS CADET

Model 51

Especially Designed For
Retail Stores, Taverns
and Road Stands

Cretors Cadet Model 51 is the perfect answer to the problem of insufficient space. Small and compact, the Cadet will hold an amazingly large amount of popped corn. Speedy and dependable, it offers a tastier product which guarantees increased profits. Corn is popped direct in the salt and seasoning. This preferred method, originated by Cretors many years ago, "seasons each and every kernel alike" and produces a better flavored corn at less cost. Here is the same quality workmanship and trouble-free performance found in Cretors larger models.
