

When Granddad was a lad . . .

CRETORS poppers were first in value . . .

Pacemaker Floor Model

Wagon Model 1892

*over three-quarters
of a century later,
they still are!*

Today, Cretors and Company is still producing poppers that are "first in value". Here are the newest examples of Cretors machines that give "more value for your money"—four new value-priced poppers designed and built to produce

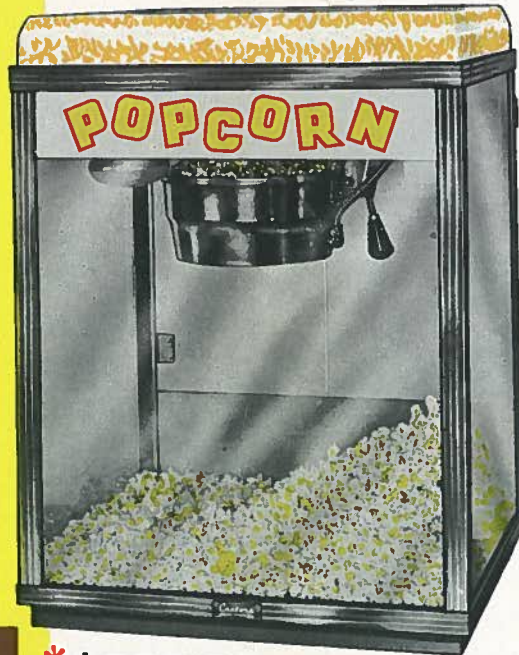

high-production profits, to yield more profit per dollar investment than any other low-priced popper. Check the cost. Compare the high profit on such a low investment for these new Cretors poppers.

THRIFTI
