

**MOST POPCORN MACHINES ARE *Cretors*
THE MOST PROFITABLE ALWAYS ARE!**

**JUST AS TRUE IN 1963 ...
AS IT WAS IN 1885!**

There's quite a contrast between the old Cretors "Steam Power Wagon", shown here, and the new CRETORMATIC, the world's first perfected completely automatic machine for popping corn in oil, shown at right. But—whether in 1885 or 1963—Cretors machines have always led the way to greater popcorn profits.

Hundreds of letters in our files from Cretors owners provide the proof that "it pays in profits to buy a Cretors."

Cretors—for 78 years the leader in developing better, more efficient, more profitable methods of popping corn—makes a machine for every location, every size of operation. It will pay you to get the facts.

"78 YEARS OF LEADERSHIP"

Cretors
SINCE 1885 **AND COMPANY**

13 Popcorn Building • Nashville, Tenn.
