Cretors Diplomat

DI20C

DI20FP

Almost a century of experience in popcorn machine design, engineering and construction by Cretors has gone into the all new Diplomat. The modern styling starting with the stylized POPCORN DECALS, beautiful extruded aluminum frame, stainless steel interior, plastic swing-away doors, hinged drop shelf, exhaust filtering system and the famous Cretors conditioner which keeps your popped product hot and delicious. The Diplomat may be equipped with either our dependable 16 oz. all-steel kettle or the 20-oz. all-steel kettle. This flexibility makes the Diplomat in demand for many different type locations depending on the need for popped product. The Base of the Diplomat has White Formica side panels and a handsome wood grain front panel. The Base of the counter model is Danish Walnut trim. On request, the new Cretors Simplex Pump (which instantly delivers coconut oil from pail to kettle) is available for either the Counter or Floor model.

POPCORN BUILDING, NASHVILLE, TENN. 37202 U.S.A.

THE DIPLOMAT

The Diplomat is the kind of machine only experience can build. (We've been making popcorn machines for almost a century now.) So, the Diplomat is as efficient as it is handsome. ☐ The Diplomat features modern "Popcorn" decals, a beautiful extruded aluminum frame, stainless steel interior, plastic swing-away doors, a 20-oz. all-steel kettle, and Cretors famous cornditioner which keeps your popped corn hot and delicious. ☐ TWO NEW FEATURES have been added to the popular Diplomat — a *lift-out drop shelf* for easy cleaning and a *washable exhaust filter*.

☐ The base of the floor Diplomat has white formica side panels and a handsome wood grain front panel. The back side is all stainless steel. The base of the counter model is stainless. ☐ On request, Cretors Simplex Pump (which instantly delivers coconut oil from pail to kettle is available for either the Counter or Floor model.)
