

CreTors

Merchant 16oz.

Features & Benefits:

- Operator side only merchandising.
- Nickel-plated, all-steel kettle resists corrosion and is easy to clean.
- Clean-in-place kettle permits easy cleaning.
- Direct drive agitator provides longer motor life with no exposed gears to replace.
- Lighted rocker switches indicate component operation.
- Single thermostat accurately controls kettle temperature for optimum popping.
- Cycling pilot light indicates thermostat is operational and is ready for production.
- Exclusive counter-balance kettle dump and return system.
- Kettle cover automatically lifts to allow popped corn to escape, maximizing popcorn expansion and profits.
- Equipped for automatic oil pump.
- Two-stage charcoal exhaust system works twice as hard to eliminate smoke and grease.*
- Circulating hot air conditioner system keeps popcorn warm, dry and crisp.
- 16 oz. kettle provides more production, but has the compact footprint found in the 14 oz. popper.
- Sweet/Salt option available.
- One-pop option available.
- One-pop option available with counter.
- Logic option available.
- Available as counter and floor models.

*Excluding Economerchant Model

Introducing The Merchants

The Merchant 16

The Merchant is the most popular popcorn machine in the export market and it is a favorite with many U.S. mid-size concession operators. The Merchants' high performance 16 oz. nickel-plated, all-steel kettle is equipped with Cretors® exclusive kettle dump and return system. This unique feature allows the operator to dump the kettle and return the kettle to the popping position using Cretors' power assisted counter balance system. This Cretors exclusive is truly a breakthrough in high-volume concession operation.

Merchant 16 Features:

- Forced hot air conditioner system
- Forced air two stage charcoal filtered exhaust system
- Lift off Plexiglas doors
- Tempered safety glass
- Back-lit popcorn sign
- Stainless steel welded unibody construction
- Equipped for automatic portion control oil pump
- Available as a counter or floor model when ordered with the matching MRDB or MREB base.
- The Merchant was the first popper in the industry to receive the TUV Product Service GS Safety Test Mark Certification.

Introducing The Steerable Antique

The Antique 4-Wheel Wagon Base has now been modified with a steerable front axle to produce the A4WB-Steerable. This new model is equipped with a steerable front axle, extra heavy-duty wheels and a pull bar (pictured). The wagon is painted with Cretors special two-part epoxy antique red and yellow. Special colors are available at additional cost.

The A4WB-Steerable will accommodate any of the Profiteer or Merchant poppers and can be equipped with a red and white stripe canopy. The A4WB-Steerable combines our modern popping technology with the nostalgic romance of our original 19th century poppers.

Model A4WB- Steerable (Part No. 91344)

This base will fit all the Profiteer and Merchant counter models
