

# Introducing **Thunder Kettle**

## The Industries Largest Commercial Popcorn Machine

**C**retors® new 48 oz. Thunder Kettle is the most innovative advance in popcorn production since we invented the first Popcorn machine.

The 48 oz. Thunder Kettle delivers 50% more popped corn (960 one oz. servings per hour) than our 32 oz. giant in the same amount of time with no increase in lobby space.

**Take a look at our new Thunder Kettle today. The potential for increased profits is earth shaking.**

# The New **Diplomat Counter Showcase**

It's Full of  
Hot Air . . .

Recirculating That Is

**C**retors® Diplomat Counter Showcase warmer has been completely redesigned and engineered. We've improved the effectiveness of the warmer, provided for multi level merchandising of different products in addition to popcorn and reduced the price all at the same time.

The Diplomat Counter Showcase is equipped with the following features:

- A 265 cubic feet per minute recirculating hot air blower system with 1,800 watts of resistant heating power. This is the largest and most quiet blower system in the industry.
- Two adjustable wire rack shelves that can accommodate any size bag, butter cup, tub, or bowl.
- Aluminum extruded frame, tempered safety glass and stainless steel cabinetry both inside and out.
- Space saving plexiglass sliding doors standard, with optional front sliding doors that can create a self-service or push through warmer.
- 4" N.S.F. legs with overall cabinet dimensions of 36" wide, 28" deep, 43 1/4" tall, 120 volt, 2000 watts, 17 amps.
- This new unit is now U.L. and N.S.F./listed.

**Let the New Diplomat Counter Showcase heat up your profits for the 90's.**
