

MINI DISPLAY CASE

NACHO EQUIPMENT

The compact yet sturdy Mini Display Case is perfect for tight spaces, providing a little extra storage without the space requirements of our larger display cabinets. Inspired by those who are looking to sell a popular snack in a compact area, last-minute sale at a register, or extra storage in a remote location away from a larger warming unit.

The Mini Display Case may be small in stature, but it is designed with the same quality and durability found in our larger display cases. The welded stainless steel construction is very durable and resists corrosion. Because the interior cabinet is stainless steel and tempered safety glass, our cabinet meets strict hygiene requirements for concession areas and other food-related locations.

KEY FEATURES

- Stainless steel construction
- Interior heat lamp to help keep product fresh and crisp
- Heat pad under cabinet deck
- Tempered safety glass
- Large drop shelf for easy access to inside of cabinet
- Optional LED lamp

Contact your Cretors representative for a complete list of agency approvals for each machine. Images may not reflect current equipment modifications, features and accessories.
