

6 FOOT TWIN POPPING PLANT WITH SIFTING TABLE

LARGE POPPER – PRODUCTION TABLE

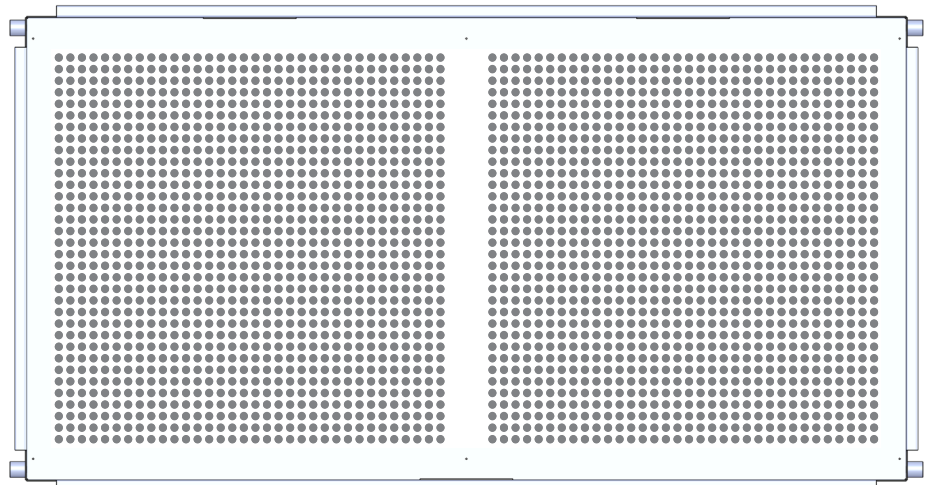

Streamline your kettle corn operations with our advanced kettle corn popping plant. Featuring high-performance Giant pedestal poppers and a durable stainless-steel twin plant sifting table, this system ensures smooth, efficient production. Perfect for bustling kitchens or dynamic showrooms, it's the ultimate cornerstone for exceptional popcorn quality.

PERFECT
FOR KETTLE CORN
PRODUCTION!

6 Foot Twin Plant Sifting Table

- Stainless-steel construction
- Full table coverage of extra-large 1/2" cleanout holes captures popcorn scraps
- Two shelves supports two pedestal poppers – gas or electric
- Two cleanout scrap bins for hassle free cleaning
- Three bag fillers allows multiple operators to work simultaneously
- Lower storage shelf that also acts as pump caddy allows the pump to move with the table to reduce oil spillage and broken hoses
- Four locking casters for easy mobility
- NSF Approved

Sifting Table Cleanout Hole Pattern

- Infrared flame is stronger and protected making it more wind resistant
- BTUs are reduced up to 30% from standard burner
- Fuel usage is reduced up to 30% from standard burner
- Cycling pilot light (no standing pilot light to burn out and use fuel)
- Right or left hand operation
- Digital readout
- Lighted rocker switches
- Equipped for pump (oil pumps sold separately)

Electric Giant Pedestal Popper

- 48/60 oz kettle
- Digital readout ensures accurate temperature settings and readings
- Cycling pilot light
- Lighted rocker switches
- Right or left hand operation
- Equipped for pump (oil pumps sold separately)

Cretors Exclusive One-Piece Kettle design with Direct Oil Feed

Our ingenuity sets us apart. Our distinct kettle design addresses several issues found in the field with Cretors exclusive solutions.

- Direct inject oil feed delivers oil directly inside the kettle, preventing messy exterior oil drips and spills.
- Kettle cover comes apart easily with tab and pin design for easy cleaning
- Welded raised pan center prevents oil leakage into the motor
